Autism Europe

Autism-Europe improves the quality of life
of people with autism.

This information is easy
to read!

What does Autism-Europe do?

We represent people with autism in Europe.

We want people with autism to get the support they need.

We want people to understand that every person with autism is different.

We work with people who take decisions and make laws in Europe.

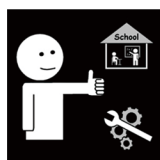

We make sure that people who make the laws know the needs of people with autism.

We want them to listen to the opinion of autistic people.

Laws are rules for all people.

We want people with autism to be able to go to school and work.

We want autistic people to take part in all areas of life.

We want autistic people to live their lives like everybody else.
